# The Technology at a Glance

**Aviel First** 

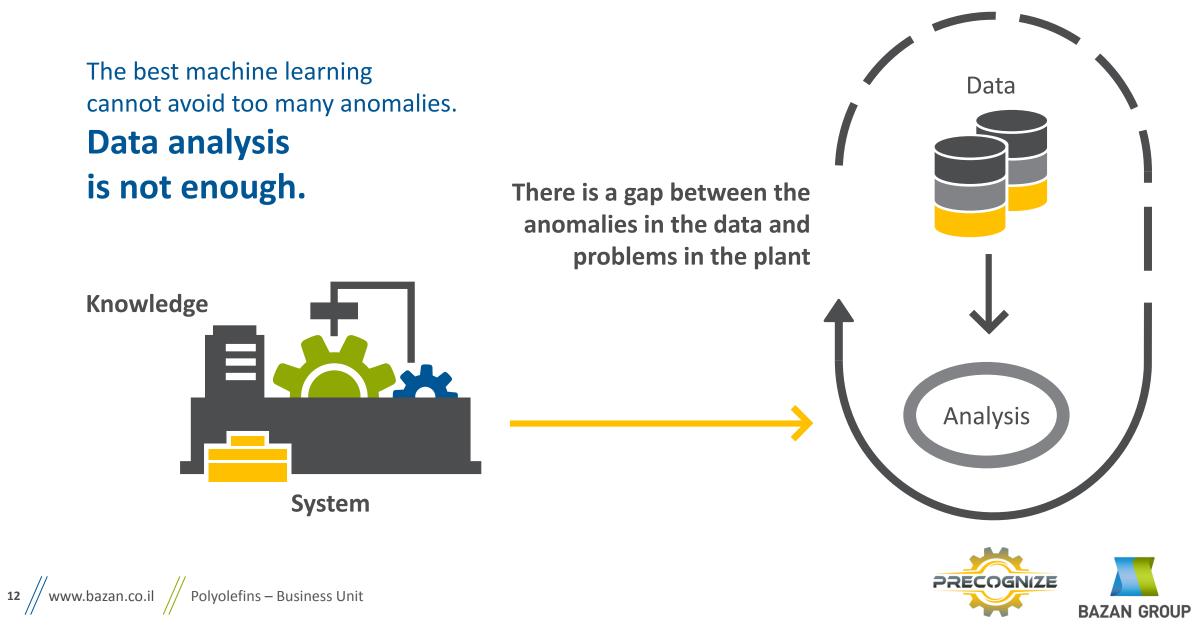

Precognize VP Sales

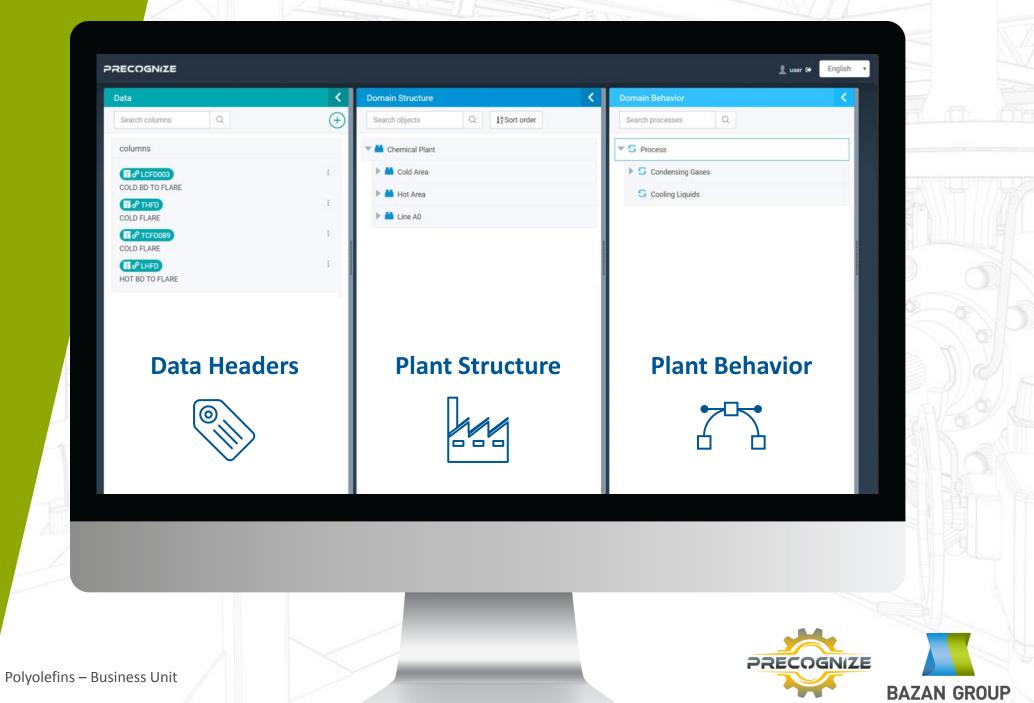

The main problem of current solutions is too many false alarms ("noise")

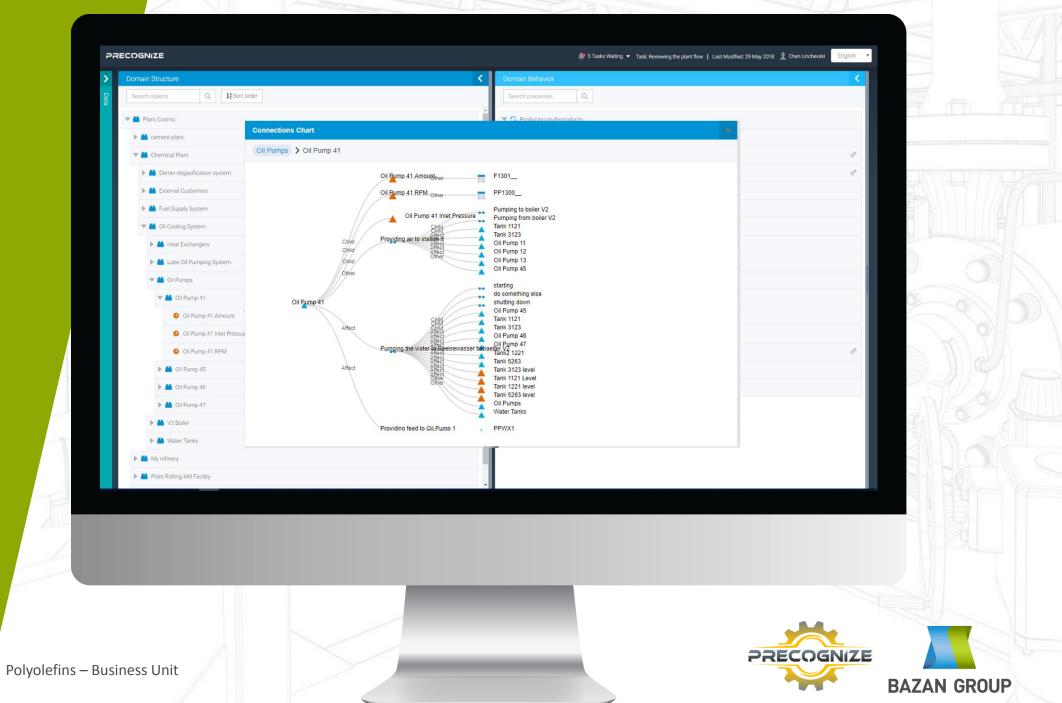

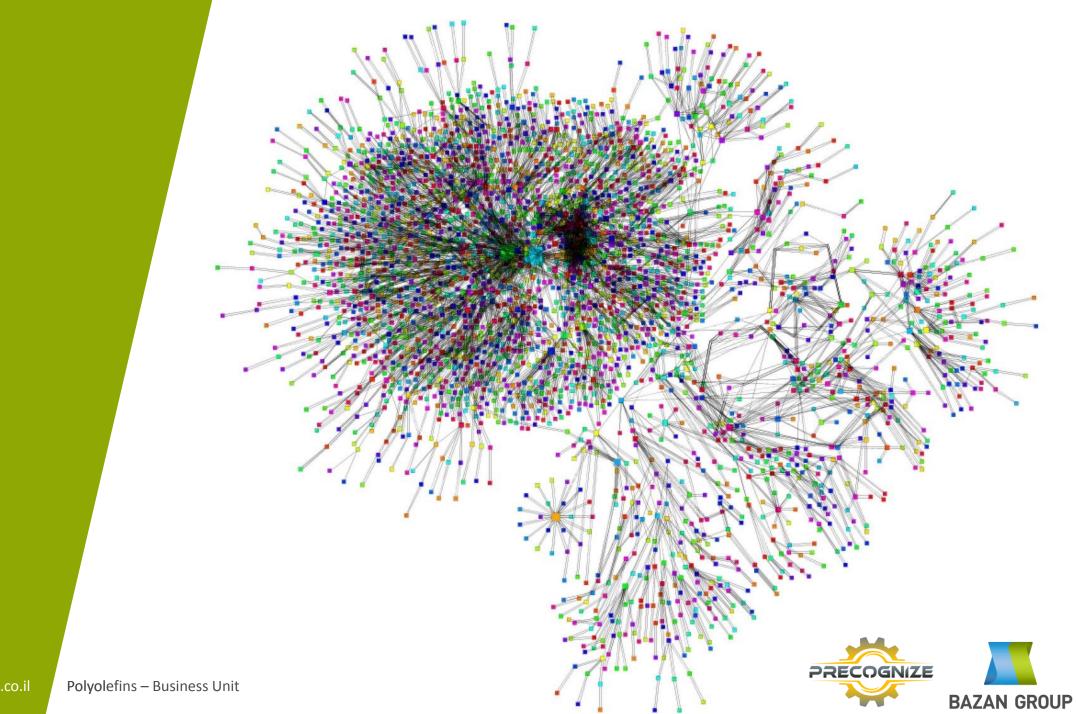

## Precognize Technological Differentiator

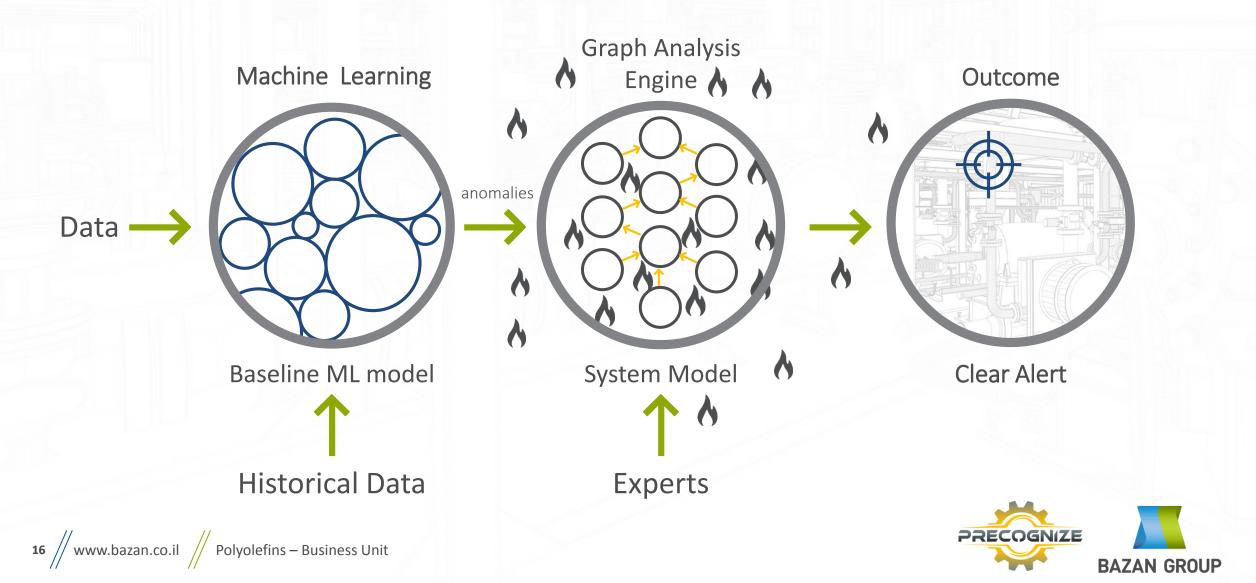

www.bazan.co.il

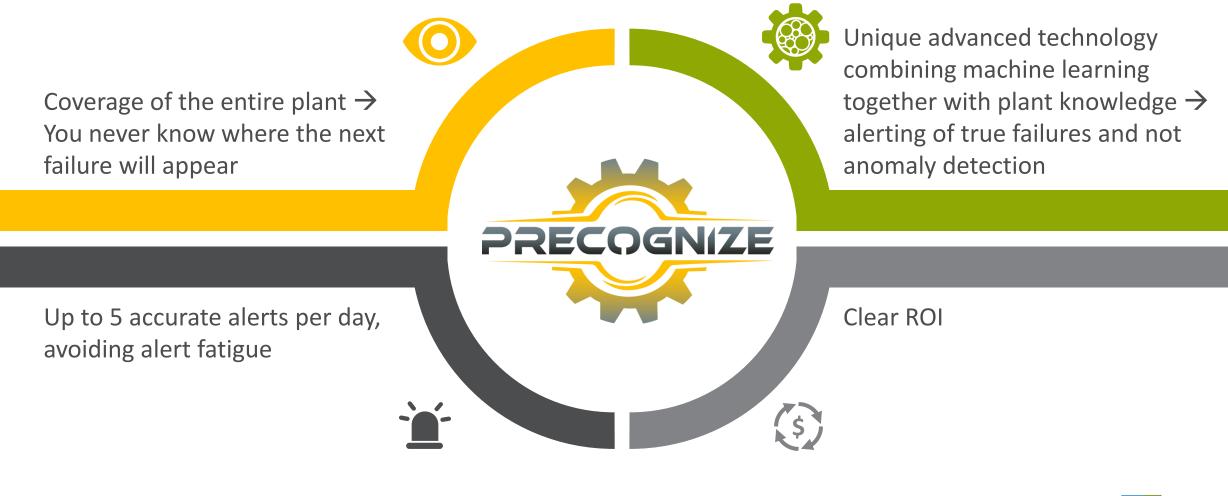

The Machine Learning part is listening to small changes in the machine operation

The Graph Analysis Engine aggregates these anomalies into a problem

#### Why We Chose Precognize

#### **Benefits for Bazan**

Management can see EVERYTHING

Constant finger on the pulse Spotlight on the darkest corners

Change of paradigm: Predicting failures, NOT reacting to ones that already happened

18 // www.bazan.co.il // Polyolefins – Business Unit

#### Innovation and Cooperation

Desire to cooperate to maximize solution's benefits

- Weekly meetings for project review, feedback, and new ideas
- Short development cycles of new ideas and testing in live implementation

Israeli cooperation between corporation and startup enhances Industry 4.0 solutions and the Israeli ecosystem

Industrial corporation adopting Industry 4.0 Innovative Israeli start-up with a designated solution for the process industry
