The following information should be stated clearly in language understandable to a general technical audience. Avoid using terminology only understood by specialists in the proposed technology.

**Please note excluding figures and captions, information outside of the word limit will not be assessed**

### 1: PROBLEM AND PROPOSED SOLUTION (500 WORD LIMIT)

- A. What is the specific challenge and/or opportunity to be addressed in this project, and why is it important for the advanced manufacturing or agri-food sectors in Ontario and Israel?
- B. What is the technical innovation to be developed, and what is the current status of the technology?
- C. What are the comparative advantages of the proposed solution relative to existing practices? Please elaborate using evidence from previous trials, if available.

A. (Type Here)

B. (Type Here)

C. (Type Here)

### 2: PROJECT OBJECTIVE, COLLABORATION AND TECHNOLOGY (750 WORD LIMIT)

- A. Describe the overall objective of the project, including the technical and commercial goals.
- B. For each of the Ontario and Israeli SME, describe the overall technological R&D to be undertaken during the project, including key milestones, deliverables and timelines. Also highlight any unique technology that will be employed.
- C. Describe the expertise, skills and/or resources required from the Ontario and Israeli SME to successfully execute this project. Describe the capability of the current project team members (including any academic partners, if applicable), and any requirements for additional skills/resources.
- D. Provide a clear statement of who owns and/or has unencumbered rights to the proposed IP required to successfully execute this project.

A. (Type Here)

B. (Type Here)

C. (Type Here)

D. (Type Here)

**3: BENEFITS TO ONTARIO AND ISRAEL (500 WORD LIMIT)**

A. As best as you can, outline the strategic relevance of the proposed work to both Ontario and Israel from both technical and commercial perspectives.

B. Outline key expected economic benefits in both Ontario and Israel (jobs created, follow-on investment, company growth, etc.).

A. (Type Here)

B. (Type Here)
