Offered expertise and contribution

HEU call topic(s) of relevance	HORIZON-CL2-2027-01-DEMOCRACY-04 — "Addressing the impact of artificial intelligence, cyberviolence, and deepfakes on equality, democracy and inclusive societies"
Your offered contribution	<i>Dr. Baram offers expertise at the intersection of cybersecurity, artificial intelligence and international security policy. She can lead or contribute to work on the governance, policy and societal-impact dimensions of AI and cyber security – including AI-enabled cybercrime, cyber threat intelligence, the public attribution of offensive cyber operations, and responsible state behaviour and norms in cyberspace. Methodological strengths include qualitative analysis of cyber conflict, cyber-event data analysis, and the design and facilitation of tabletop and scenario exercises. She brings an extensive transatlantic and Indo-Pacific research network (UC Berkeley, Stanford, NTU Singapore) and a strong record of policy-facing and public engagement. She can support requirements analysis, threat-landscape framing, ethics and societal impact, stakeholder engagement, and dissemination and exploitation.</i>
Your offered role (Coordinator, Work package leader or partner)	<i>Partner, with interest in leading a work package on the governance, policy, ethics and societal-impact dimensions and on dissemination, exploitation and stakeholder engagement.</i>

Experience

Have you already participated in an EU funded project?	<i>no</i>
