Dear Colleagues,

I am reaching out to share an expression of interest from one of our national research institutes seeking partners for upcoming Horizon Europe Cluster 2 calls under the destination Social and Economic Transformations.

**INCSMPS - National Research Institute for Labour and Social Protection**

(Romania) has asked me to circulate their profile and topics of interest within the NCP network, in the hope of identifying potential consortium partners.

Their institutional profile and specific areas of interest are detailed below. Should any of your national stakeholders be working on related proposals, we would encourage direct contact with the INCSMPS representatives listed at the end of this message.

Thank you in advance for your support.

Kind regards,

Adina
