

A comprehensive portfolio to support your life-cycle

Empower users to maintain visibility and control of their operational network in the Industrial IoT era

Unique Value Proposition

Seamless integration into your environment

Approved Patents

Op Center HMI

Security Center

- Asset Inventory
- Risk mapping
- Anomaly detection

Network Firewalls

Smart Probes

Value for the Oil & Gas industry

- Asset inventory & risk mapping
- Anomalies in industrial processes

- Secure remote drilling sites
- Integration into process control
