

GAS LEAK DETECTION CAMERA

Opgal's EyeCGas® is an innovative Optical Gas Imaging (OGI) camera
For detection of hydrocarbon gasses.

WHY OGI ?

- Simple : Visually see the gas
- Informative : Leak source localization
- Quick : 10x faster than analyzers
- Safe : Remote operation
- Versatile : Many gas types
- User friendly : “Camcorder”

Recognized by the EPA as “BSER”
Best System for Emissions Reduction.

EYECGAS 2.0 WIRELESS OGI (2018)

- EyeCGas 2.0 is the **Most Connected OGI Camera** in the world !
- Live video streaming
- Video Files upload to the network
- Seamless integration LDAR software
- Real time integration with Analyzers
- GPS coordinates
